

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

I never ever make any long distance calls with my cell phone.
Most people with cell phones dont. Especially people with
trac-fone like me and my family. we cant even afford a contract
based cell phone. If anything I think the pre-paid cell phone
market should be exempt from this.

Sincerely,

coley wallis
